

**FOREIGNERS SLAIN
BY THE CHINESE
MANY PEOPLE MASSACRED
AT CHING-TU.**

Missions of America, England and France Attacked and Their Occupants Killed—Reports of More Turkish Atrocities—Spain to Watch the Rebels.

London, June 10.—A special dispatch from Shanghai says it is almost certain a massacre of all the persons connected with the English, French and American missions at Ching-Tu has occurred. Neither men, nor women, nor children have been spared, according to the report.

Telegrams have been intercepted by the government, the object being to conceal the news of the massacre. Ching-Tu is the capital of the Province of Szechuan, the most western province of China.

The city is one of the ports opened by the recent treaty of peace following the end of the China-Japan war, and is also one of a number of places which it was predicted would revolt at the incursion of foreigners and the introduction of modern methods following the carrying out of the terms of the treaty of peace.

Ching-Tu is 600 miles west of Wuchang, whither a French gunboat has gone, and 1,000 miles west of Shanghai. It is 150 miles north of the Upper Yang-Tse Kiang river and the center of a district said to be the most thickly populated in China. The population of Szechuan in 1891 was 67,712,897. There are American, French and English missions at Ching-Tu, the European occupants of which probably number sixty. Wuchang is the capital of the Province of Hupeh and one of the great trading places along the Yang-Tse Kiang river. There is a great Chinese arsenal there and a railroad, which, however, runs only to Chun-King, also in Szechuan. There are telegraph lines along the river, but none in the interior.

TO WATCH THE REBELS.

Spain Buying Vessels to Patrol the Coasts of Cuba.

Madrid, June 10.—The commander of the naval forces at Havana has been authorized to purchase merchant vessels and utilize them as cruisers for the purpose of preventing filibusters and all partisans of the insurgents from landing on the shores of Cuba.

Havana, June 10.—The steamer Julia has arrived at Gibara bringing a large number of troops, and has returned to Puerto Rico for further reinforcements. Other steamers will also bring additional troops for Marshal Campos. Autonomist leaders attach no importance to the uprising headed by the marquis of Santa Lucia. He is 72 years of age and when he left Puerto Principe numbered among his followers only a few young men and boys.

Tampa, Fla., June 10.—A carrier pigeon has reached Key West bearing a message that the filibusters landed in Cuba safely at 2:45 this morning. The expedition, it is said, must have landed on the northern coast within 150 miles of Key West. Cubans here believe it landed near Saugua.

SOCIALISTS RIOT.

Rioters Under Arrest—Police Are Roughly Handled by the Crowd.

Vienna, June 10.—A conflict between workmen and the police took place yesterday. Ten thousand laborers gathered on the streets of the city, according to a preconcerted arrangement. Deputy Pernerstorfer and other socialist leaders made speeches to the crowd. The police declared the meeting illegal and requested the audiences to disperse. The crowd separated, but the arrest of a man named Feigl caused a collision between the police and the socialists, who tried to rescue the prisoner. The police were stoned and many small fights occurred in various portions of the city all the morning. A mounted inspector had his uniform torn from him and he was nearly pulled off his horse. Another inspector was thrown down and kicked in the abdomen. Many policemen were injured by the shower of stones. Nineteen socialists have been placed under arrest.

MASSACRE IN TURKEY.

Rumors That Many Persons Have Been Killed in Mossoul.

London, June 10.—A telegram from Constantinople says reports have been received there to the effect that serious trouble has occurred in Mossoul. Rumors that many persons have been killed have been freely circulated, but it is impossible to verify these statements.

WURTEMBERG'S FLOODS.

Berlin, June 10.—Further reports from the disastrous storms in the vicinity of Wurtemberg add to the horrors of the first accounts of the devastation. The latest advices describe the country as being transformed into a veritable desert. The king of Wurtemberg has gone to the scene and has ordered all necessary assistance given to the suffering peasants without delay.

Russia and the Vatican.

St. Petersburg, June 10.—A ukase of the czar, just issued, establishes a permanent Russian legation at the Vatican. The legation will consist of a resident minister at Rome and a secretary.

Cyclone in Italy.

Rome, June 10.—A cyclone swept the district of Motola, in the province of Lecce. Property to the amount of 1,000,000 lire was damaged. No fatalities are reported.

Denounce the Debs Decision.

Omaha, Neb., June 10.—A mass-meeting of the workmen of Omaha was

held yesterday to take action on the recent refusal of the supreme court to grant a writ of habeas corpus in the case of E. V. Debs. The hall was packed with workmen. The following resolution was adopted: "Resolved, That we, the workmen of Omaha, in mass-meeting assembled, denounce the action of the court as arbitrary and unjust, and calculated to destroy the confidence of the masses in the integrity of the judiciary of the United States,"

FIGHT OVER AN OHIO OIL WELL.

Farmer and His Sons Make Armed Resistance to Well-Drillers.

Findlay, O., June 10.—A bloody battle between Henry Kutz and his three sons and men employed by the Genesee Oil Company was narrowly averted last evening at the farm of the former, a few miles west of this city. The oil company holds a lease on the farm, but Kutz claims that the company had forfeited it by failing to drill the stipulated wells. Yesterday the company attempted to enter the premises with rig timber for the purpose of drilling a well on a portion of the farm which had not been developed, but were met at the boundary line by Kutz and his sons, who were heavily armed and threatened to shoot the first man who crossed the line. The oil men were unarmed and beat a hasty retreat. The Genesee company is sending as many men as it can collect to the scene and has declared that the well will be drilled even at the cost of keeping the lease surrounded by an armed force until it is completed.

FATAL FLOOD IN HUNGARY.

Is Feared the Town of Kobersdorf Is Swept Away.

London, June 10.—A dispatch to the Standard from Vienna gives additional particulars of the flooding of Kobersdorf, the Hungarian summer resort. So sudden was the rise of the freshet that it was not realized until the bodies of the dead peasantry, pieces of buildings and furniture from the cottages came floating into the lower part of the town. One of the remarkable incidents of the flood was related by some of the persons who escaped to the mountains. It was the story of the manner in which a cradle containing a sleeping child was forced down the gorges by the rushing waters. The child was rescued with difficulty by those in the lower part of the village. Owing to the damage to the wires, it is impossible to ascertain the exact loss of life, but it is feared that the whole town has been destroyed. It is, however, known that twelve bodies of the inhabitants of this one village have been recovered.

PORTE IS FRIGHTENED.

Tries to Modify His Answer to the Three Powers.

Constantinople, June 10.—The decision of the powers respecting the unfavorable answer of the Turkish government to the note presented to the Porte by the representative powers regarding the forms proposed for Armenia is expected next week. There are indications that the Turkish government is uneasy at the silence of the powers and a high official has been sent to three embassies, those of Great Britain, France and Russia, to confer with the ambassadors regarding Armenia, and representing to them that the Porte's reply was only a semi-official communication. The ambassadors of the powers mentioned, however, refused to discuss the question, declaring that they regarded the reply received as official and final.

HERDERS FLED FOR LIFE.

Drove the Flocks Out of Colorado When the Army Approached.

Denver, Col., June 10.—Word comes from Camp Baker that when the cattlemen reached that point, the stronghold of the sheepmen, they numbered 800, and formed a line down the valley one mile long. On their approach the sheep herders fled for their lives, and when the flag of truce was sent in by the cattlemen the few remaining offered to agree to any terms, which were that they must take the sheep out of the country immediately. The leaders of the cattlemen had the greatest difficulty in keeping a number of their force from slaughtering about 2,000, and it was not until they saw the herds were moving north that they became calmed and refrained from carrying out their threat.

McClaughey to Be Warden.

Washington, June 10.—Supt. R. W. McClaughey of the Pontiac reformatory has been selected as the warden for the United States penitentiary at Fort Leavenworth when that institution comes under the jurisdiction of the department of justice July 1, 1895. There has been a thorough canvass made of candidates for this position, resulting in the choice of McClaughey, who was strongly endorsed by democrats as well as republicans as a capable, efficient official and one fitted in every way to discharge the duties of the new position.

Will Appeal to the Queen.

Winnipeg, Man., June 10.—Manitoba ministers and members of the legislature are already gathering for the meeting of the legislature on Thursday, when the school question will again come up for consideration. Archbishop Langevin says the Catholics are determined to press for their school rights and that if the legislature refuse them he would personally appeal the case to her majesty, Queen Victoria.

Farmers Lose Their Homes.

Butte, Neb., June 10.—From fifty to sixty settlers on the government land in Gregory county, South Dakota, have been dispossessed of their claims by the recent survey between the Indian reservation and Gregory county. Many of the farmers have been living on their claims for more than three years and in some cases have improvements valued at \$4,000.

WILL COST \$400,000**

CREAM CITY AGAIN VISITED BY A CONFLAGRATION.

The Flames Originated in the Forster Lumber Company's Yard at Two O'clock This Morning and Raged For Two Hours—Other Fires That Raged Yesterday.

Milwaukee, Wis., June 10.—Fire broke out at 2 o'clock this morning in the Forster Lumber company's yard on Cape street. It quickly communicated to the B. Uhrig & Son coal yard, in which there were 50,000 tons of coal, which are a total loss. The steam barge Raleigh of Detroit, which was unloading coal, was totally destroyed. The Lucy Graham, loaded with lumber in the river, caught fire, but was saved by the efforts of the sailors. The fire spread to the Gallun tannery and Schlitz brewery barns, and for a time it looked as if the town was to suffer an immense loss. The elevator plant of the Broderson Manufacturing company, on the west side of the canal, caught fire in the rear, but was saved by quick work on the part of the firemen. At 5 a. m. the fire was got under control and the Gallun tannery did not burn. The entire loss will probably reach \$400,000. The largest loss is that at Uhrig & Son's coal yard, which was not far short of \$200,000. The Forster Lumber company's loss is total and will not be far from \$25,000.

CAMERON, W. VA., IN FLAMES.

Almost Entirely Destroyed by Fire—Relief Train Wrecked.

Wheeling, W. Va., June 10.—The town of Cameron, W. Va., a place of 1,500 inhabitants on the Baltimore & Ohio road, twenty-eight miles east of Wheeling, was almost entirely destroyed by fire last night, and the homeless people are camping on the hills that surround the ruins. The fire broke out about 10 o'clock and spread rapidly. The town was without fire apparatus and help was asked from Wheeling. An engine was placed on a special and started for Cameron at once. The town north of the Baltimore & Ohio road has been burned. This includes the business section of the place. The only structure left standing is the railroad building and the fire-fighters had to work hard to keep it from burning. Several buildings are burned on the street running north from the Crawford house, which had to succumb. Many of the inhabitants have lost all they possessed and are entirely destitute. The loss will probably reach \$100,000. A special train was at once sent with a fire engine, but the train was wrecked ten miles this side of Cameron and the engineer and fireman were killed.

FOREST FIRES AGAIN BURNING.

Pennsylvania Oil Country in Great Danger from Flames.

Bradford, Pa., June 10.—The forest fires of last week began burning fiercely yesterday and are still burning. It was thought the recent rains had started vegetation sufficiently to prevent further troubles. Fires are reported in the vicinity of the Kane oil field, and men are fighting the flames. No damage has been done so far. Ormsby is again the scene of destructive fires and a large amount of valuable timber has been destroyed. Fires are reported in the vicinity of Mount Alto and Mount Jewett. At the latter place some timberland was burned over and the Bradford chemical works is in great danger of being destroyed unless the wind shifts.

A destructive fire occurred yesterday at Sugar Run, a small lumber town eighteen miles west of here, and destroyed a trestle on the Allegheny & Kinzua railroad. A large amount of timber has been burned.

Much Lumber Destroyed.

Baltimore, Md., June 10.—Storick's planing mill and lumber yard, ten dwellings on East Monument street and nine dwellings on East Front street, in the rear and to the westward, were destroyed, and nine adjacent dwellings were more or less damaged by a fire which broke out shortly before noon yesterday. The property loss is placed at \$125,000. One hundred poor people were rendered homeless. The insurance is \$50,000.

Costly Fire at Kalamazoo.

Kalamazoo, Mich., June 10.—Fire yesterday destroyed the extensive lumber yards, planing mill, sash, door and factory of Dewing & Sons and seven brick and frame stores. The Dewings' loss will exceed \$100,000, insured for \$75,000. The total loss will exceed \$200,000. The insurance on stores nearly covers the loss. It is thought the fire was started by tramps.

Two Hurt in a Fire.

Elizabeth, N. J., June 10.—Two persons were fatally injured in a tenement house fire here yesterday. The flames spread rapidly and Mrs. John Fitch jumped from a window to the ground. She was so badly hurt that she will die. John Grigg went into the building to save some of his property. He was rescued in an unconscious condition and can not recover.

Massachusetts Silk Mills Burn.

Northampton, Mass., June 10.—The John M. Learned silk mills were totally destroyed by fire last evening. About 150 hands are thrown out of employment. The total loss is estimated at \$100,000; insurance, \$60,000.

Whitelaw Reid's Mother Dead.

Xenia, Ohio, June 10.—Mrs. Marian Reid, mother of the Hon. Whitelaw Reid, died at her home near Cedarville yesterday, aged 91 years. The Hon. Whitelaw Reid, her only child, arrived here at 4 o'clock this morning. The aged mother will be buried beside her husband in a country cemetery near the farm.

**STATE UNITARIANS
MEET AT OSHKOSH**

ANNUAL CONVENTION WILL OPEN THIS EVENING.

Over One Hundred Ministers Are Expected and Mayor Kellogg Will Welcome Them—Charles Soderstrum of Florence, Drowned at Iron Mountain.

Oshkosh, June 10.—[Special].—The state convention of the Wisconsin Unitarians meets in this city tonight. Over one hundred ministers are expected to be present and Mayor Kellogg will deliver the address of welcome.

Florence, Wis., June 10.—[Special].—Charles Sanderstrum, of this city, was drowned in the Menominee river, near Iron Mountain, Michigan, and the body is still in the river.

Phillips, Wis., June 10.—[Special].—A young son of William Remmann is lost and his parents suppose he was drowned under a log jam Saturday. The river has been dragged but without success.

KILLED BY A WOMAN.

Sewing Machine Agent at Omaha Shot Dead.

Omaha, Neb., June 10.—Early yesterday evening a tragedy occurred in the home of a wealthy citizen in the most fashionable quarter of the city. To protect her honor, if not her life, Mrs. James Ish of 847 South Twenty-ninth street, shot at and instantly killed a young man named Chappell, one of the agents for the Singer manufacturing company in this city. It is said that on his visits to the house he has been insulting to Mrs. Ish. Yesterday he again became insulting in his manner, and on taking hold of Mrs. Ish she began to fight him, at the same time calling for help. Immediately Chappell drew from his hip pocket a revolver, but Mrs. Ish snatched it from him and fired every chamber at him. He fell to the floor shot in four places—in the neck and directly over the heart—and died instantly. Mrs. Ish declared the shooting was done in sheer desperation to protect herself. Little or nothing could be learned about the dead man.

J. K. Emmet, Jr., in Jail.

San Francisco, Cal., June 10.—J. K. Emmet, Jr., the German dialect comedian, attempted to murder his wife last night, and was only prevented from executing his design by the forcible interference of neighbors. Emmet had been about town all day, and in the evening returned home in a drunken condition. He and his wife had an altercation and the woman fled from the house. Emmet pursued her into the street and fired a pistol at her at close range. Then he caught the unfortunate woman and beat her about the face with the butt end of the gun. Two young men pulled him from his victim and turned him over to the police. Mrs. Emmet is not badly hurt.

Will Blow Up a Cave.

Guthrie, Ok., June 10.—Deputy United States Marshals Runnels and McCraft came in from Woods county yesterday and lodged in the federal jail. Belle Black and Jennie Freeman, mem-

bers of the Zip-Wyatt gang, the marshals on Tuesday had a battle with the gang and drove the men into a cave in the Glass mountains at the extreme western end of the Cherokee strip, where they still have them besieged. The deputies secured a large quantity of dynamite and left again for the Glass mountains, determined to blow up the cave.

STORM DOES EXTENSIVE DAMAGE

Railway Bridges Washed Out and Crops Severely Injured.

St. Paul, Minn., June 10.—A terrific rainstorm throughout the southern half of Minnesota yesterday did great damage washing out crops and railway tracks. Two bridges were swept away in Stearns county. In St. Paul the storm caused the roof of the Selby avenue cable power house to fall in, but nobody was hurt. On Lake Byrher a boat capsized, throwing three men into the lake. One of them, Henry Schneider, aged 30, was drowned.

FOUR MEN SUFFOCATED.

Perish in a Colorado Tunnel—Overcome by Foul Air.

Pitkin, Col., June 10.—News has reached here that four men were suffocated in the Alpine tunnel yesterday afternoon. An engineer had run into the tunnel, which is 1,776 feet long, with a crew of several men to syphon out an accumulation of water held in by a dirt cave. The ventilation of the tunnel is poor, and the smoke and gas from the engine made the air so stifling that the men soon prepared to leave. As the engine was backing out a man was discovered lying across the track and the engineer reversed, running farther into the tunnel, where all the men were quickly overcome by suffocation. Strenuous efforts were made to rescue the men, but it was impossible, as the air within had become so impregnated with gas and smoke that for several hours no one could enter far enough to reach the victims. The dead are: M. W. Flavin, superintendent; N. Matinez, engineer; Michael Burns, fireman; Oscar Cammann, minter.

Cloudburst in Iowa.

Creston, Ia., June 10.—A furious rain almost amounting to a cloudburst passed over this section yesterday. The streets were flooded, sidewalks torn up and culverts and outbuildings carried away. There are likely to be serious washouts on railroads, as the creeks are bank full and rising fast, and low places are flooded. The precipitation thus far is at least six inches greater than for several years.

Two Feet of Water in Streets.

Hinckley, Minn., June 10.—The worst rain for years started Saturday night at 12 o'clock and continued until 2 yesterday afternoon. The thunder and lightning were terrific. There was about two feet of water in the streets. At Little Mission creek, one mile south, the freshet washed out forty feet of the St. Paul & Duluth tracks. Limited trains had to transfer.

Runs Into a Trolley Car.

Streator, Ill., June 10.—An open street car was struck by a train on the Chicago & Alton road yesterday and Thos. Hardie and Samuel Porter were thrown under the train. Hardie's right arm was torn off at the shoulder and his right side crushed. Porter had both legs badly crushed and was also hurt about the head. Both men died in a few hours. The coroner's jury is investigating the case.

Negro Shoots Two Princeton Students

Trenton, N. J., June 10.—The town of Princeton is still in a ferment of excitement over the shooting of Garrett Cochran, '98, of Williamport, Pa., and Frederick Ohl of Newcastle, Pa., by a colored water named Collins. The shooting was done on Witherspoon street just off the college campus. Some words passed between the students and the negro and the boys passed on. Collins followed up Nassau street, when more words passed and without further warning Collins pulled out his revolver and began to shoot. Three shots were fired, one passing through Cochran's cheek and lodging at the base of the brain, another cut its way into Ohl's abdomen and the other passed through his wrist. Both are in a very dangerous condition and their recovery is extremely doubtful.

Tarred and Feathered.

Walla Walla, Wash., June 10.—Fifty masked men, heavily armed, went to the respectable house occupied by Robble Allen, a colored woman. Going to a bedroom they dragged Joseph Fossati and the woman from the bed and hurried them to a hack, which was driven to the outskirts of the city. Their clothing was torn off and a heavy coat of tar and feathers applied and the two ordered to leave the city. Although Fossati is the son of a very respectable family and has had more than the average advantage in life he was persistent in living with the woman and on Friday they went to Dayton, where they were married.

River Out of Its Banks.

Big Springs, Neb., June 10.—The South Platte river at this point has risen to nearly high-water mark. A local ditch broke last night, submerging the territory between town and the river. The water, it was feared, would damage the railroad track, and a watcher was appointed to guard during the night. However, no damage was done, and the water is now under control.

Bad Break in the Erie Canal.

Amsterdam, N. Y., June 10.—The break on the Erie canal near Patersonville is seriously interfering with traffic, and will result in great loss to boatmen. A force of 150 men and fifty teams is working night and day, and it is thought that the break can be repaired and traffic resumed by next Thursday.

Mary A. Dodge Much Worse.

Washington, June 10.—Miss Mary A. Dodge (Gail Hamilton) is much worse and her condition is again precarious.

BY JUSTICE FULLER**

NEW SECRETARY OF STATE ASSUMES HIS DUTIES.

The Interesting Ceremony Took Place This Morning—President Cleveland Slipped Away from the White House Saturday and Went Fishing Yesterday at Lesbury, W. Va.

Washington, June 10.—Secretary of State Richard Olney was sworn in this morning by Chief Justice Fuller and has assumed his new duties.

Washington, June 10.—The president slipped quietly away from the White house Saturday night and went fishing yesterday at Lesbury, W. Va.

INDIANS WANT ALLOTMENT.

Omahas Anxious to Control Their Tribal Lands Themselves.

Pender, Neb., June 10.—United States Senator Allen held a council with the Omaha Indians at the Omaha agency to personally inform himself in regard to the controversy which is menacing the peace of this county. The contention is in regard to the disposition of their tribal lands, of which they have about fifty thousand acres. A number of prominent Omaha Indians told the senator that their people were unanimous in a desire for an immediate allotment in order that they might handle their tribal lands themselves. The subject of the five-year lease on a 23,000 acre tract of these lands to Contractor Farley was then brought up, the Indians claiming the contract was interpreted to them as a one-year lease.

End of University Conference.

Clinton, Iowa, June 10.—The University conference closed a successful three-days' session in the Davis opera house here with an interpretative recital of the book of Job by Prof. R. G. Moulton of the University of Chicago. All churches in the city united at this meeting. Three large congregations were addressed in the morning by Chicago university professors in attendance at the conference. At the Congregational church Prof. F. W. Sheppardson spoke to a union meeting of the Baptist and Congregational societies. Prof. Nathaniel Butler occupied the pulpit at the First Methodist church and Prof. R. G. Moulton presided at the First Presbyterian church. Prof. Moulton also spoke before the Y. M. C. A. in the afternoon.

Brazil Sues for Libel.

New York, June 10.—A special cable to the Herald from Buenos Ayres says: "In refutation of stories which ex-President Caceres of Peru has been giving to the press, Gen. Pierola last night wired La Prensa that no agreement existed between himself and the Chilean government, and that all assertions to the contrary were absolutely false. Brazil has ordered her minister here to prosecute the Petit Journal, a French newspaper, for an alleged insulting article about Brazil in connection with the French Guyana affair. Two regiments have been sent to Rio Grande do sul to re-enforce the frontier army. The Italian legation in Rio Janeiro has sent in more claims for indemnity of citizens tortured during the last revolution.

Michigan Man Killed in Mexico.

Chihuahua, Mexico, June 10.—About two weeks ago P. R. Flower and John T. Benton, two wealthy young Americans from Michigan, arrived here and left on an overland trip to Hermosilla, across the Sierra Madre mountains. Advices have been received here that Mr. Benton was killed three days ago by falling over the side of a cliff. His companion is on his way to Nogales, Arizona, with the body of the dead man.

Tribesmen Attack British.

Calcutta, June 10.—Dispatches from Simla say that the tribesmen of Chitral are again threatening to attack the British troops. A body of 500 tribesmen is collected in the vicinity of Dargal and the British are preparing for an attack. Later dispatches from Simla say that a body of Shirkannais has surprised a village twenty miles from Fort Sandeman, in the Zhoob country, and killed a British lieutenant and seven men.

Will Remain in Session.

London, June 10.—The rumors so persistently circulated recently of the probability of an early dissolution of parliament are gradually dying out, as the moving spirits of both the conservative and liberal parties admit that it is to their interests to avoid a dissolution during the session.

Weekly Bank Statement.

New York, June 10.—The weekly bank statement shows the following changes: Reserve, decrease, \$1,553,350; loans, increase, \$890,400; specie, increase, \$142,800; legal tender, decrease, \$1,734,200; deposits, decrease, \$232,600; circulation, decrease, \$22,700. The banks now hold \$39,667,900 in excess of the requirements of the 25 per cent rule.

Wages Still Going Up.

Youngstown, Ohio, June 10.—The blast furnace operators of the Mahoning and Shenango Valleys have decided to advance the wages of their employees 10 per cent, to take effect June 15. This is the second 10 per cent advance made in two months, or a restoration of the wages paid before August 15, 1893. About 2,000 men will be affected.

Watched by Government Spies.

Panama, June 10.—Ecuadorians who sympathize with the revolution are being closely watched by government spies. Three foreign warships are now at Gu

GOOD ADVICE GIVEN BY BISHOP FALLOWS

CHICAGO DIVINE TALKS TO
JANESVILLE PUPILS.

Annual Address to the Senior Class at
the Congregational Church Last
Evening—Music By a Splendid
Choir—To Play Julius Caesar To-
morrow Evening.

OMMENCEMENT
week! What a
turmoil of excite-
ment that means
for the high
school graduate
whose years of
study are finished
and the goal is in
sight!

"How will my
essay take?"

"Will I get lots of flowers?"
These two questions always suggest
themselves to the pupil and naturally
so. Another thing that worried the
"sweet girl graduate" to use an ex-
pression that has never been copy-
righted, was "what shall I wear?"
but this year that question was an-
swered by the school board in a few
words:

"A dress that doesn't cost to exceed
five dollars."

The week's events opened with the
baccalaureate address of Bishop Fal-
lows at the Congregational church last
evening. The edifice was packed al-
most to suffocation and standing room
was at a premium. The music was
exceptionally good, it being furnished
by a chorus composed of the
various church choirs of the
city under the direction of Mrs.
Minnie S. Conrad.

Seats were reserved for the various
classes of the high school and the
class colors were displayed by each,
while the young ladies of the
junior class acting as ushers.
The exercises did not begin
until 8 o'clock in order that the con-
gregations of other churches that held
evening services could be present.

Bishop Falls Address.

"Blessed Be He Who Findeth Wis-
dom" was the text chosen by Bishop
Falls, and his address was along
the line of advice to the pupils who
were about to step into the
real path of life and to be brought
into competition with those whose
worldly knowledge was more com-
plete. He advised them to grow in
grace, to be careful of the literature
they selected, and to exercise tact in
their dealings with people.

"The bible is the book of books," he
insisted, "and attention is the secret
of success."
In closing, the bishop delivered an
address to the graduating class, the
members rising and remaining standing
until the close of his remarks. His
address was a masterly one and in-
dicated clearly the path that led to
the realization of the hopes and ambi-
tions of men, spiritually, intellectu-
ally and in a business way. Not-
withstanding the intense heat, the
audience listened to him with marked
attention and all felt fully repaid for
so doing.

The Week's Program.

The program for the balance of the
week includes the presentation of
Julius Caesar by the juniors on Tues-
day evening, the class day exercise on
Wednesday evening. Thursday the
commencement exercise proper and
the concert by the Columbian quar-
tette, while on Friday evening the
alumni will entertain the graduates at
Concordia hall.

Costumes of fine material and of
historically correct design have been
received for the production of Julius
Caesar and the first rehearsal was held
at All Souls' church Saturday evening.
The play will be presented at
the Myers Grand and reserved seats
can be secured this evening. The cast
will be as follows:

Cassius.....Edward Peterson
Marc Antony.....Charles Reader
Julius Caesar.....William Dennison
Cassius.....Jennie Dudley
Cassius.....William Hamilton
Desclius.....Bernard Palmer
Portia.....Kittie Smith
Belle Stoddard

The production has entailed consid-
erable expense and it is hoped that it
will be liberally patronized.

The Alumni Banquet.

The annual reunion of the Alumni
association will be held Friday
evening, at Concordia hall. A fine
program, music by Smith's orchestra
and a banquet served by G. A.
Shurtliff will be features
and the following members will re-
ceive: Mayor and Mrs. F. S. Baines,
Messrs. and Mesdames. M. G. Jeffris,
C. S. Jackson, Lee Beers, T. S. Nolan,
V. P. Richardson, S. C. Burnham, Dr.

FINE CHILDREN'S DAY EXERCISES

The Presbyterian Sunday School Scholars
Do Themselves Proud.

Children's day exercises were held
at the Presbyterian church yesterday
morning and the young folks did
themselves proud. The responsive
service and recitation by the primary
class were especially good, the re-
sponses being remarkably clear and
distinct. The three little Misses, Sov-
erhill, Holt and Hardy did especially
well. The Boys' Brigade, in their
handsome new uniforms, made by
the Henderson-Ames com-
pany, made their first
appearance, and as Captain Glass, the
local agent had seen to the measuring
etc, in person, they made a fine ap-
pearance. There were thirty boys in
the brigade. The service was a pa-
triotic one, the flag being displayed,
while "The Star Spangled Banner"
"America" and other patriotic songs
were sung.

MAKE NEW DRILL REGULATIONS

Gen. Ruger Engaged In Rearranging The
Code For Army and Militia.

General Ruger since his arrival in
Washington has been devoting his
entire time to work on the drill regu-
lations and the manual of arms, mak-
ing the movements suitable for the
new gun which has been adopted for
the use of the army. It has been
found that the important changes
made in the regulations
necessitate generally a revision
of the phraseology of the entire
tactics so that a large percentage
of the changes are verbal. It is expected
that the national guard will adopt the
regulations as soon as they are pro-
mulgated by the war department. The
guns used by the army and the na-
tional guard are different but it is ex-
pected that the regulations can be
adapted to the use of the latter with-
out material changes.

GOSSIP FROM THE STATE TOWNS

Mrs. WM. GALLOWAY of Whitewater
has three young chicks that were
bathed from imported eggs. The
eggs were laid in Derry county, Ire-
land, and formed part of a luncheon
outfit which a young Irish woman
brought with her when she crossed
the sea this spring. She stopped with
Mrs. Galloway for awhile after her ar-
rival in Whitewater, and gave her six
eggs which she had left. They were
put under a hen which had exhibited
an inclination to do something for her
country, and three Irish chickens
came from them.

The Muscoda school board has made

class.

RODE TO ROCKFORD ON THEIR WHEELS

JANESVILLE CYCLERS VISIT
THE FOREST CITY.

Roads Were Good and Wind In Their
Favor So They Had a Fine Trip.
Returning In The Evening—Other
Delegations Visit Other Places—
Cycling Notes.

Fourteen members of the Arrow
Cycling club left the club house at
5:15 o'clock yesterday morning bound
for Rockford, a ride of thirty-two
miles. The prairie road was selected
as the route to Beloit and the roads
were perfect and the wind favorable.
The Line City, a distance of fourteen
miles was made in one hour and
fifteen minutes and at Beloit the club
were joined by a number of the mem-
bers of the Line City club. The road
to Rockford via Rockton was selected
and it being sandy in many places the
distance of eighteen miles was made
in two and one-half hours. At Rock-
ford the boys were escorted to the
Rockford Cyclers' club house for a
few hours' rest and from there they
were taken up the river
on the steamer Queen.
The Rockford Cyclers were
holding their annual picnic, and it is
needless to state that the event will
long be remembered by the Janesville
boys. One of Rockford's best orches-
tra was on the grounds, and the
cyclers had everything that money
could buy. The luncheon was espe-
cially fine; the "spread" consisted of
everything, from "spring chicken to
frog-legs."

During the afternoon a game of
ball was played between the Janesville
and the Rockford teams, which result-
ed in the defeat of the visitors by a
score of 10 to 2, the Rockford team
being strengthened by a number of
professionals. The feature of the
game was the work of Rockford's pitch-
ers, Keyes, whose delivery was speedy
and hard to find. A good sized crowd
witnessed the game, and a return date
may be played in the city in the
near future.

At 4:45 the wheelmen started from
the picnic grounds which are situated
five miles north of the city, for home.
The road via Roscoe being selected.
The Bower City was reached at 8:15.
Those who went were:

O. Sutherland, F. E. Sanner,
F. P. King, F. M. Nolan,
G. O. Ford, Ross King,
W. W. Watt, E. V. Whitton, Jr.,
C. W. Bliss, C. F. Knoff,
J. G. DeLong, W. L. Bidwell,
Chas. Ellis, W. N. Consett.

The Other Trips Taken.

DR. JOE WHITING, W. A. Scott and
W. C. Mitchell started yesterday at
5 a. m. for Delavan. The distance of
twenty miles was covered in short
order and after spending the day in
the city and at the lake they returned
home in the evening.

J. W. BOYES and Ray Morse took a
spin to Newville yesterday home at
noon.

BICYCLES are being stolen all over
the country and Rock and adjoining
counties are being visited frequently.
The city police are daily informed to
look out for thieves. It is about as
Chief Acheson says—after a wheel is
once stolen, it is the hardest thing in
the world to identify it. The last
message received read as follows:
"Stolen on June 6, from Gibson
City, Ill., a Columbia bicycle, Model
34, No. 10470, \$50.00 reward."

FRED KING has established a new
bicycle record that is liable to stand as
far as the local riders are concerned.
He attended the Woodman's picnic at
Madison, leaving here at 4 a. m.,
reaching the Capital City at 8:25 a.
m. His cyclometer registered 49 1/2
miles, and this included short stops at
Edgerton, Stoughton and McFarland.

ble of the season and everybody is

Lawn Sprinkling Must Stop.

The attention of water consumers
using water for lawn sprinkling, is
called to the rule of the water com-
pany, "That use of hose for lawn
sprinkling is prohibited during a fire."

comply with this rule endangers the
city, and as a matter of safety I shall
require the manager of the water
company to enforce the rule in all
cases.

BRIEF BITS OF LOCAL NEWS

You remember at the Great World's
fair, when you parted for the day
with friends on the ground you always
told them where to meet you later in
the day; at the Crystal Cave at Tif-
fany's exhibit or at the Fountain.
Now when you come down town even-
ings wouldn't it be a good idea to have
some good place to meet your
friends then say to them:
Meet me at Bort, Bailey & Co's. You
are always welcome. You will not be
bored to buy. You can come in and
make our store your headquarters.
We want the ladies of the city to
know that at Bort, Bailey & Co's.
they are always welcome at all times.

COL. SMITH'S STIRRING LECTURE
He Tells the Wonderful Story of the
Songs of Patriotism.

An enthusiastic and greatly de-
lighted audience listened for an hour
and a quarter Wednesday evening to
Col. Nicholas Smith's eloquent por-
trayal of the interesting story con-
nected with the production and effect
of the songs of patriotism and war in
all countries and times. He entered
upon the study of his subject with an
ardor and love that spared neither
labor nor expense of time or money in
collecting, classifying and arranging
the widely scattered facts into a word
picture of wonderful completeness and
brilliance.

In the introduction, mention was
made of the early songs of the North-
men and the Crusaders, the French-
man's soul-inspiring Marseillaise, and
the German Watch on the Rhine, and
in this way his audience was conduct-
ed into the marvelous labyrinth of
American songs where Yankee Doodle,
Hail Columbia, The Star Spangled
Banner, Battle Hymn of the Republic,
Tramp, Tramp, Tramp, the Boys Are
Marching, Battle Cry of Freedom,
Marching 'Thro Georgia, and others,
were made to live and glow with re-
newed life and meaning to old and
young alike. It goes without saying
that a man so entranced with his
theme could not fail to relate the story
with pathos, enthusiasm and eloquence
and furnish an entertainment as de-
lightful as it was instructive, and as
ennobling as it was unique.—Ft. At-
kinson Union.

NEW PLAN IS MADE TO FIX A BRIDGE

JACKSON STREET STRUCTURE
TO BE REPAIRED.

It Is Suggested That the Part Crossing
the Marsh Be Pulled Up and a Solid
Embankment of Earth Built In Its
Place With a Bridge at the
Channel.

The specifications for repairing
Jackson street bridge will be acted
upon by the common council this
evening, when bids will be presented
for repairing the structure as it now
stands, which has caused considerable
criticism. This bridge is something
like eleven hundred feet in length.
At least two-thirds of the bridge is
over a swamp. Parties who have
examined the bridge claim that it
would be economy to tear up this por-
tion of the bridge and fill in the
swamp, making a good substantial
embankment through the swamp, thus
shortening up the bridge to four
or five hundred feet, and
in time construct a sub-
stantial bridge over the river proper.
The swamp is all on the south end,
and it is claimed sufficient filling to
make this embankment and roadway
can be secured near by, so that the
first cost would not be much greater
if any than the present repairs, be-
sides being much more substantial.
Jackson street bridge is undoubtedly
to remain as a city bridge for all time.
This being the case, they claim it
should be made durable, and if the
building of the embankment at the
south end and shortening up the
bridge two-thirds, is the best and
cheapest in the end, they insist that
the council should not hesitate in so
altering the specifications.

THE HONEY CROP IS A FAILURE.

Dealers Say Many of The Bees Died Last
Winter.

"Farmers from all parts of the
county report the prospect of almost
an entire failure of the honey crop for
the coming season," said a dealer
today. "Last fall the bees
went into winter quarters with
heavy stores of honey and apparently
in healthy condition, but in
removing them from winter quarters
this spring it was found that
fully seventy-five per cent. of the
hives contained nothing but dead
bees, and large amounts of uncon-
sumed honey. The latter part of last
summer was so exceedingly dry that
the pasturage for bees failed entirely,
so that after the first of August there
was no honey gathered from flowers.
As is always the case in a dry season,
there was an unusual amount of
honey dew. This is a dark, sweet-tas-
ting substance deposited on the leaves
of the oak over night, which is ea-
gerly sought by the bees in the ab-
sence of flowers, but is never used
except as a substitute. It is the using
of this substitute for honey for winter
food which has bred disease and killed
nearly all the bees in the country.
In nearly all small apiaries
the loss has been complete and
probably throughout the country
from seventy-five to eighty per cent. of
the bees have died, and those remain-
ing are in a very feeble condition. It
is a strange fact that from fifty to
seventy-five pounds of good clean
honey remained untouched in nearly
every hive this spring; had the bees
been fed on this they would have been
in healthy condition."

HEROIC WOMEN.

Their Struggle Against a Common and
Merciless Enemy.

[SPECIAL TO OUR LADY READERS.]

Woman's hero-
ism is not evinced
by fearlessness or
enterprise in the
face of danger, but
her courage and for-
titude are unques-
tionable in time
of suffering.

Think of the
woman who
smiles and tries
to make those around her cheerful, and
while she is racked with the excruciating
torments of womb trouble.

Think of one who, day by day, begs her
physician to help her, while the torture
of tortures could not add to her misery.

Does she yield? No! She endures her
agonies, and meets her friends with
cheerfulness.

This is woman's heroism, and few men
realize how prevalent they are. Physi-
cians rarely render relief in such cases.
After twenty years of success, with ever-
increasing popularity, Lydia E. Pink-
ham's Vegetable Compound is, to-day,
woman's only sure and safe refuge from
inflammation, ulceration, falling and dis-
placement of the womb, ovarian trouble,
leucorrhoea, painful and suppressed men-
struations, kidney trouble, nervous pro-
stration, and all manner of distressing
and life-sapping female diseases.

"O my sisters, believe what is told of
this wonderful medicine! Before I
took it I had falling of the womb and
leucorrhoea. My womb came down so
badly I could not walk across the floor;
the pain was excruciating; now all is so
changed, and I am so happy. Lydia
E. Pinkham's Vegetable Compound has
saved me from a life of misery. Don't,
don't suffer, I say, when a cure is so easily
obtained."—MRS. WILLIAM HOWE, 163

"DOING" EUROPE.

Curious Ideas Some Women Have of Seeing Sights Abroad.

This is the time of the year when the outward-bound ocean steamship is crowded with Americans, all inspired with the laudable intention of "doing" Europe. At other seasons the intention of the passengers is neither so evident nor so unanimous. Just now, however, they are nearly all of one mind. If they are from remote parts of the continent they generally spend some three or four days in "doing" New York prior to the larger enterprise. The hotels are thus filled with embryo tourists, their faces shining at the mere prospect of the promised land before them. Their conversation is both interesting and edifying. Most of them contemplate "Yurrupe," as many of them are pleased to call it, as one vast shopping ground—a purchaser's paradise where bargains abound and "special sales" are unlimited. Rome is "that place where Lucy got those lovely stockings, you know." "Mrs. Crinoline says that the best and cheapest place in all London is at 3 Littlepikkleby Gardens, Mulberry square, S. W. The best and cheapest for what? Oh, tailor-made gowns, of course." And as for Paris, "Oh, I hope we'll have the luck there that Fannie Featherbrain had. She was with a party, and, of course, for the first few days she had to do all those dreadful art galleries, but pretty soon she just broke loose and shopped straight ahead for a whole day. And when she got back to the hotel that night what was her joy to find that everything she'd bought was wrong in some way or other, and so she had to go back next day and change every single one of them. Wasn't that perfectly lovely?" Seasickness—its cause, its preventions and its cures—is another fruitful topic of the would-be European traveler. Cloves and flannel bandages, dried beef and hot-water bags, lemons and loose clothing are indiscriminately recommended as the great and only antidotes to the malady.

BEES FORM FRIENDSHIPS.

Experiences of a Young Man to Whom They Took a Liking.

"I always loved bees," said the young man in gold-bowed glasses behind the dairy counter, as he handed down a honeycomb for the inspection of a New York Sun man.

"When I was on the farm," he continued, "I could go all about the hives and not get stung and none of the others dared go near the bees. We used to have an old farmer come around and tend to the swarms, but one day when I was a boy working in the fields I heard a great humming noise up in the air and saw a swarm a-coming. Well, I picked up a tin pan that was there and hammered on it until the bees settled on the end of a fence rail. Then I thought I could tend to the swarm as well as the old farmer, so I got an old hive, washed it out with honey and water, rubbed my hands and arms with burdock juice and honey water and went at the bees. I got them off that rail by the handful and they never stung me.

"After that I regularly tended to the bees. Whenever there was a swarm I rolled up my sleeves, took off my shoes and hat and went at them. I have taken them from all sorts of places, but I was stung only once. They'd light on my head by the dozen and crawl through my hair. That used to send cold chills down my back. Sometimes my arms were so covered with bees that from wrist to elbow you couldn't see the flesh.

"The one time when I was stung I had found a swarm on a high limb and was sawing it off and at the same time holding on to it so that it should not fall to the ground with the bees. In doing this I squeezed one of the bees and it flew straight at my temple and stung me just above the eye. Since I left the farm the folks have given up the bee business. There's no doubt about it, bees like some folks and hate others, and I don't know any reason for the difference."

UNCLE SAM'S STAMPS.

They Are of No Earthly Use Over the Canadian Border.

The gradually spreading renown of Kootenay brings us many letters of inquiry as to its capabilities from all sorts and conditions of people in the United States, says the Nelson (Can.) Miner. With praiseworthy honesty these persons nearly always enclose a two-cent United States stamp to pay the cost of reply. We have often heard Britishers called down for living up to the belief that they were the people and that their language and their sovereigns were good all the world over. A large experience teaches us that the Britisher is very nearly right, but his pride is nothing to the humble confidence which so firmly believes in the universal omnipotence of the United States postage stamp. One almost hesitates to break the spell of such simplicity by telling our cousins to save their cents because these stamps are of no earthly use outside their own country.

Bismarck and Humanity.

Bismarck must remain, as long as he lives, the visible symbol of strength, as opposed to mere sinuous management in public life. Considered in the abstract, such a character may easily be riddled by the criticisms of logicians and get a bad name among the historians. But when it appears among us in the concrete of flesh and blood, human nature is drawn irresistibly toward it and holds it priceless by comparison with all varieties of merely talking and writing creatures. When Englishmen find themselves most nearly agreed as to Oliver Cromwell's place among great Englishmen, they have in their minds a picture of him driving an impotent and foolish parliament from its chamber and putting the door key in his pocket. The same impulse fills the length and breadth of Germany today with a sort of stormy joy in the contemplation of this old man, whose giant's frame and lion's heart and direct and simple yet lofty powers of mind and achievement seem to belong to the heroic period of northern legend and myth rather than to the modern constitutional shop-keeping state.

The Only Remedy in the World that Refunds Purchase Price if it Fails to Cure the Tobacco Habit in 4 to 10 Days is

Narcoti-Cure

It Cures while You Continue the Use of Tobacco.

The greatest discovery of the age!

A certain, pleasant, permanent cure.

A lifetime's suffering ended for \$5.

Why sm 'ke and spit your life away? Why suffer from dyspepsia, heartburn and drains on your vital forces?

Stop using tobacco, but stop the right way.

Drive the nicotine from your system by use of this wonderful remedy.

Narcoti cure is warranted to remove all desire for tobacco in every form, including Cigar, Cigarette and Pipe smoking, Chewing and Snuff Taking.

Use all the tobacco you want while under treatment, and in from four to ten days your "hankering" and "craving" will disappear—the weed won't taste good.

Then throw away tobacco forever.

Narcoti-Cure is entirely vegetable and free from injurious ingredients. It never fails to give tone and new vigor to the weakest constitution.

Remember Narcoti-Cure doesn't deprive you of tobacco while effecting a cure; doesn't ask you to buy several bottles to be entitled to a guarantee; doesn't require a month's treatment; and finally, doesn't enable you to stop tobacco only to find yourself a slave to the habit of tablet chewing.

With Narcoti-Cure, when you are through with tobacco you are through with the remedy. One bottle cures. Send for book of prominent testimonials like the following:

HUNTINGTON, Mass., Mar. 18, 1895. The Narcoti Chemical Co., Springfield, Mass.

Gentlemen—I have used tobacco for over twenty-five years, chewing and smoking every day from 7 a. m. to 9 p. m. stopping only for meals.

On Monday, February 4, I called at your office in Springfield, and bought a bottle of the Cure which I used as directed and on the tenth day the desire for tobacco had left me and has not returned. I did not lose a meal while taking the Cure. My appetite has improved and I consider Narcoti-Cure a grand thing.

Very respectfully,

CHAS. I. LINCOLN.

Mr. Frank H. Morton, of Chicopee Falls, Mass., late Inspector of Public Buildings for Massachusetts, says:

I used tobacco for twenty-five years, and was a confirmed smoker. In just eight days' treatment with Narcoti-Cure I was through with tobacco, in fact the desire vanished like a dream.

Very Respectfully,

FRANK H. MORTON.

If your druggist is unable to give full particulars about Narcoti-Cure, send to us for Book of Particulars free, or send \$5 for bottle by mail.

THE SILVER CRAZE.

That the back bone of the silver craze is broken, is generally conceded. The Illinois convention was the last straw; and while loud mouthed orators and enthusiastic followers will continue to advocate the heresy, much to the discomfort of the democratic party, it is safe to say that the country is saved from the perplexing dilemma. It is currently reported that the Chicago delegation at the Springfield convention was composed largely of thugs and pickpockets, who believed so thoroughly in the freedom of money that members of the convention were robbed of about \$30,000. This may be taking time by the forelock, and yet it is a very effective method of distributing wealth, and certainly less dangerous to the country at large than the free silver doctrine.

Just what the democratic party will do with the silver contingency is an open question. Many of the disaffected members will be found in line when their presence is needed, but the active leaders and advocates of the movement will find it difficult to return. It is more than possible that a silver party will be organized for the benefit of the disaffected element and for the accommodation of the populists and soft money man of the west. In the mean time the republicans can well afford to wait and let democracy fight it out. The return of prosperity, which is rapidly being inaugurated, will do much to settle financial questions, and the silver discussion will spend itself long before the campaign opens. A nation represented by 70,000,000 people, possessing \$70,000,000 in wealth, with an insignificant per capita debt as compared with other great nations, cannot long be disturbed by the money question. The nation possesses the intelligence and ability to solve the problem wisely and, it will receive due attention when the republican party again assumes control.

England uses about one and a half billion pounds of meat annually, of which the United States supplies nearly three-fourths.

NEWS OF LOCAL IMPORT.

DRINKING water these oppressively hot days is like pouring sand through a sieve. The more you drink the more you want, while a glass of Thompson's Wild Cherry Phosphate quenches the thirst at once. A teaspoonful of extract to a glass of cold water sweetened to your taste makes a refreshing drink, superior even to lemonade. 35 cent bottle makes four gallons of the phosphate. Dunn Bros.

We think that one of the best ways of advertising a new article is to invite the public to sample the goods. Our Saturday's sale of "Notox" is proof of this plan. We gave away samples of Notox and people were so taken with the extract that we sold 67 bottles during the day. Notox is put up in 25 cent bottles, any flavor. Grubb Bros.

THERE was a time some years ago when most everyone had their shoes made to order because they thought the material would be finer and the fit nearer perfect. This might have been the case today, had we not come into the field with a line no one can dispute being as well fitters and as fine as any made to order shoes ever put on the feet. Becker & Woodruff.

In our desire to sell we may speak a little strong about the kind of shoes we handle, but will guarantee you its not too strong because we have the best there is and 50 cents on the dollar of the factory cost takes any of them. Come and take your choice. Becker & Woodruff.

SUCH oxfords as we are selling for \$1.10 other stores ask you \$1.50 and \$2 for. Good judges came in Saturday, looked at our shoes and then went and looked all over Janesville but they came back. People know a good thing when they see it. Lloyd & Son.

At the wonderfully low price we are selling soap for today it would pay you to put several boxes on the shelf at home for future use. Think of it! Three bars of Cucumber and three bars of Buttermilk soap for 30 cents! Prentice & Evenson.

The Ladies' Aid society of the Baptist church will meet with Mrs. Mark Honeysett, 658 Pleasant street, Wednesday afternoon. All ladies of the society and church are cordially invited.

OUR Saturday's soap sale was such a success that we have decided to continue it today and will sell three bars of Cucumber and three bars of Buttermilk soap for thirty cents, today only. Prentice & Evenson.

Don't fail to attend the class day exercises by the Senior class Wednesday evening, June 12. Everybody welcome. 10 cents admission is imposed merely to keep out those not interested.

THE kind of shoes we sell at 50 cents on the dollar of the factory cost is the kind you want; no better made. We are busy tying up packages all the time. Becker & Woodruff.

LADIES of the Order Eastern Star are requested to meet at Masonic hall, Tuesday afternoon, June 11, at 3 o'clock. A full attendance is desired. Mrs. M. W. Sherwood, W. M.

ALL day long we are besieged with customers buying shoes at 50 cents on the dollar of the factory cost. They are the best shoes on earth. Becker & Woodruff.

THOSE gents tan shoes, hand sewed are beauties. We sell them now for \$3.00. Get prices at other places and compare them with ours. Lloyd & Son.

It's not hard to get the kind of shoes you want now-a-days, we have one of the finest stocks ever shown at 50 cents on the dollar. Becker & Woodruff.

We have just received a full line of ladies and gents oxford ties. Come and see them while the sizes are good. Lloyd & Son.

New Minister from Hawaii.
San Francisco, Cal., June 10.—The steamer Monawa brought advices from Honolulu, dated June 1, that William R. Castle has been appointed Hawaiian minister at Washington in place of L. A. Thurston. He will not leave for Washington until Aug. 1. Mr. Castle was one of the commissioners sent to Washington to arrange for annexation as soon as the monarchy was overthrown.

Important Tariff Decision.
Washington, June 10.—In the Burr and Hardwick case Chief Justice Fuller's decision claims that the tariff act of 1894 takes effect on Aug. 28, not Aug. 1 as the act had not been completely passed before the former date and it was evidently no intention of congress to make the law retroactive. It could not apply to transactions already completed when the act became a law.

Chile Raises Money Easily.
London, June 10.—The Chilean loan, which has been floated here, was covered twenty times over, the terms of the loan being regarded as especially advantageous by European financiers.

She Will Not Resign.
San Francisco, Cal., June 10.—Miss Susan B. Anthony, who has returned from the Yosemite Valley, denies the report telegraphed from the east that she had resigned the presidency of the National Suffrage league. She says she has not resigned and does not intend to do so.

Atchison Plan Effective.
New York, June 10.—The Atchison reorganization committee has declared the plan of reorganization effective. The securities deposited under the plan include \$90,000,000 general 4's, \$45,000,000 2's and 500,000 shares of the stock.

Choice Lumber Burned.
Cloquet, Minn., June 10.—An incendiary fire early this morning burned 15,000,000 feet of choice lumber in the Cloquet Lumber Company's yard. Loss, \$150,000; fully insured.

Ants That Make Nests.
A new phase in the wonderful instinct of ants is the case of formica smaragdina of Malacca, which makes its nest in trees, joining the leaves together by a thin thread of silk at the ends. The first step in making the nest is for several ants to bend the leaves together and hold on with their hind legs, when one of them after some time runs up with a larva, and, irritating it with its antennae, makes it produce a thread with which the leaves are joined. When one larva is exhausted a second is brought and the process is repeated. —Philadelphia Press.

Paper Providing For Summer Concerts
In the Court House Park and on the Corn Exchange Square Librally Signed By Merchants on Both Sides of the River.

A paper arranging for summer band concerts was circulated this morning, and liberally signed, by the merchants on both sides of the river. The scheme is to give a series of fifteen concerts, to be given both at the corn exchange and at the court house park, the object being to raise money to pay for the band's new uniforms. The first concert will be given next week and the band should be encouraged as it is now one of the best in the state.

The largest audience that the John D'Ormond Company have had this week saw the production of "The Silver King," at the Myers Grand Saturday evening. The Imperial band played in front of the opera house before the performance and their fine music drew a large crowd. The performance was for the benefit of the cotton mill strikers and they will receive quite a neat little sum in consequence.

Elsewhere in this issue of The Gazette will be found the ad. of Archie Reid & Co's dry goods business; and as has always been the case with all advertising done by the firm, there will be profit in looking it over. Never making a price unless it is a low one, and always showing so many special bargains, has made this store the favorite trading place for a good share of the people of Janesville and Rock county.

Five new members have been taken into the Y. M. C. A. Cycling club and F. F. Lewis, J. C. Kline and John Harrington have been appointed a committee to arrange for a series of runs twice each week, as may best suit the convenience of the members.

While carrying a basket of coal on the second floor of the Myers house yesterday, John Curtis stumbled on a board, throwing him to the floor with sufficient force to throw his arm out of joint. Dr. Edden attended him.

The pupils of Mrs. J. F. Sweeney, assisted by the pupils of Mrs. L. A. Torrens will give a musicale at the Grand hotel parlors this evening, for which a number of invitations have been issued.

The committee on fire and water inspected the fire department this afternoon, and the aerial ladder was taken out and raised at Thoroughgood & Company's cigar box factory.

McGINLEY and Dixon were the Dubuque battery in yesterday's game with Burlington, and the score was a tie—8 and 8—when the game had to be called on account of rain.

The home of P. J. Mount, 104 Pleasant street, has been quarantined on account of scarletina, their eldest daughter being attacked by the disease in a mild form.

The North End Juniors defeated the Stars by a score of 8 to 4. The battery for the Juniors was Ward and O'Grady and for the Stars Skavlem and Richardson.

E. C. BURDICK who has been seriously ill since last Wednesday, is slowly improving, and was able to sit up for a short time this morning.

MISS MAUDE FULLER, formerly of this city, but now of Baraboo, is in the city, to attend the high school commencement exercises.

GEORGE BEARD and M. V. Burlin game spent Sunday fishing on Lake Monona, returning last evening with a good sized catch.

THE naphtha launch "Hattie," owned by the late Charles W. Hodson, has been sold to Frank Northcraft, of Brodhead.

THIS is the last week of the spring term of the public schools. The pupils will then take a rest until September.

MR. and Mrs. S. B. Halstead will leave tomorrow for Rockford where they will attend a family reunion.

D. P. SMITH and family expect to leave Wednesday for Chicago, where they will reside in the future.

MISS EMMA WINANS, who has been attending school at Kenosha, is home on her summer vacation.

JOHN Martin of Oshkosh, the block paving contractor, is in the city this afternoon, and rumor has it that he is

here to put in a bid for paving Milwaukee street bridge. He did the work on the bridge when it was first paved.

MR. and Mrs. O. W. Bemis' Third ward home has been brightened by the coming a baby boy.

ARE STILL DRILLING THE WELL.

The Drill Is Down Two Hundred Feet, and Working in Sand.

Work on the water company's new artesian well progresses rapidly. Very little "drilling" is now being done, for little rock has been found so far to hinder the progress of the "driver." They have reached so far a depth of two hundred feet, while the outflow now contains mostly sand. Very few stones of any kind have been found. The work is in charge of a day and a night crew, the night crew being composed of Scaffoldman William Perry, Engineer J. Bolinger and Driller William Prentice, while Foreman Frank Dyke, Engineer William Seipp and Scaffoldman William Crescent form the night crew.

TRAVEAING MEN PLAN A PICNIC

Annual Outing to Be Held at Crystal Springs July 6.

The annual outing of the Janesville Commercial Travelers' Association will be held at Crystal Springs park on July 6, the date and place of the event being settled upon at the meeting of the association held at the Grand hotel Saturday evening. The Imperial band will play and John M. Whitehead has been invited to deliver the address. The arrangements are in charge of A. F. Spooner, James Whitaker, W. E. Clinton, J. P. Baker and H. S. Gilkey. The association and the band will parade before leaving for Crystal Springs.

RAN MRS. SPAFFORD'S BUGGY DOWN

Careless Driving Caused a Runaway on South Main Street.

Careless driving by a young man said to live in Beloit, was the cause of Mrs. B. Spafford being painfully injured. Mr. and Mrs. Spafford were driving down Main street, and Mr. Spafford had just alighted from the buggy when a horse driven by the Beloit man, ran into them, throwing Mrs. Spafford out, and tipping the buggy over. Mrs. Spafford was quite painfully injured, and was taken to her home on Sharon street. The young man didn't wait to investigate, but drove away as fast as the horse could go.

Mr. Glass retains the back lot which fronts on Bluff street and will build a residence there this summer.

NO DECISION IN THE BELOIT CASE

Testimony in the Vaccination Matter Must Be Written Up.

Judge Bennett's decision in the Beloit school board mandamus case will not be announced until the court reporter writes up the testimony and the judge has time to examine the same. No business of public importance was taken up in the court today. The divorce case of Herbert against Herbert will be taken up on June 17.

FUNERAL OF F. A. BLUMH

There was a large attendance at the funeral of Frederick August Blumh, both at the home on South Academy street at 2 o'clock and at St. Paul's church at 2:30 o'clock Sunday afternoon. Rev. C. J. Koerner officiating. At the conclusion of the services at the church the remains were taken to Oak Hill for interment, the pall bearers being Phillip Metzger Otto Graf, Charles Rouch, William Nickle, Charles Mullenschlaeder, William Vohs.

SISTERS PULL HAIR UNTIL POLICE COME

MONTEREY MAIDENS FALL OUT AND FIGHT.

They Couldn't Agree on Some Household Proposition—Youthful Base Ball Players Fined—Nevels Acquitted of the Cruelty to Animals Charge—Other Police News.

Two Monterey maidens fell out and fought this morning, and for a time the air was charged with trouble. The young ladies were sisters but sisterly love didn't seem to figure half so much in the discussion as hair pulling and finger nails. The girls lived with their mother near the Monterey arch and their name was too foreign for the police or any one else to remember, much less spell. They disagreed about some household proposition this morning and their vocabulary of both English and German was soon totally exhausted. Then they resorted to muscular expression and the fur began to fly. Some of the neighbors hustled over to Rudolph's grocery store and telephoned for the police. Chief Acheson and Officer Hogan made a quick trip to the scene of war, but decided not to make any arrests, as the parties had decided to arbitrate rather than to go to jail.

James Sherwood, one of the Fourth ward park ball team, was introduced to Judge Phelps this morning, when a complaint was read to him with violating a city ordinance relating to ball playing in the streets and public grounds. Sherwood pleaded guilty and was fined \$1 and costs. There are three more boys who are charged with the same offence, for whom warrants have been issued.

The jury before whom James Nevels of Beloit was tried on Saturday, on charge of cruelty to animals, brought in a verdict of not guilty, and the defendant was discharged.

John Dixon who is well known to the police was taken in by Officer Hogan Saturday night and lodged in jail. He was drunk and making himself a nuisance at a number of places about the city.

LOCAL TEACHERS AT BELOIT.

Janesville Teachers Take Part In an Institute at The Line City.

Janesville teachers took part in the session of the Rock County Teachers' Association held at Beloit Saturday. F. P. Starr, of Afton presided and Charles Hemmingsway of Janesville, acted as secretary pro tem. The program opened with a piano solo by Miss Sophie Welsend of Janesville. Miss Anna Daggan gave an address on the "Responsibility of the Teacher." Miss Carrie Zelniger, of Janesville, spoke on "Technical Grammar."

The afternoon session opened with a vocal solo by Prof. Buell of Janesville, and addresses were given as follows: "The coming teacher," Charles Hemmingsway, "What has the public school a right to expect from the public," Prof. A. J. Huston; "Color in animals," Prof. E. R. Downing, and "Libraries," Prof. L. E. Gettle.

LARGE STOCK SHIPMENT ARRIVES

Chicago Cattle Come to Janesville to Be Fed For the Market.

George D. Charlton has returned from a visit to the Chicago stock yards, and as the result, four well filled cars arrived in the yards Saturday, one filled with yearlings, and the other three with older stock. The animals will all be placed on a Rock county farm to be fattened for the fall market. The Chicago Drovers Journal speaks of Mr. Charlton as one of the best known and shrewdest buyers that frequent the Chicago stock yards.

MANY FOLKS WENT UP THE RIVER

Both of the Steamboat Lines Were Locally Patronized Yesterday.

Sunday was a very quiet day in the city. Many people took advantage of the various opportunities and sought relief from the excessive heat in the groves up the river. The excursion steamers did a good business, and did not get all the people back to their homes until late in the evening.

S. B. SMITH THE BOSS MILLINER

Trimmed the Prettiest Bonnet At the Home of Mr. and Mrs. Fifeid.

"What kind of a bonnet can the average man make when he is provided with the necessary materials and unlimited opportunities to use them?" This has long been a burning question. Of course good Mr. Worth, before he died, could make a pretty fair bonnet in his Paris establishment and then tack a price on it that made it complete in all details, but he was an expert. What John Jones and Tom Brown could do in that line had never been settled up to Saturday night. Mr. and Mrs. James S. Fifeid realized the importance of this question and issued invitations to about forty friends to come and see for themselves. Accordingly their pleasant Washington street home was the scene of a most pleasant social event on that evening. Luncheon was served at 7:30 and then came the real business. The invitations read "bonnet and necktie party" but the guests didn't realize just what that meant. However, they soon found out, and the fun began.

Each gentleman was required to trim a bonnet, while each lady was expected to construct a necktie. The materials for both were varied and each artisan, selected such trimmings as their tastes directed and went to work with needle, thread and scissors. Of course the ladies could make neckties and do it fairly well, but when men makes bonnets—

Well, then heroism counts. But they made 'em. Stanley B. Smith turned out to be the "boss milliner." He took an old poke bonnet with a hole in the roof; a couple of corn plasters and a few other things and made piece of head-gear, they said, that caused the goods to weep. The hat was the shape that the late lamented Salem witches were partial to; with a long slant to the crown in front; a short slant behind, and a saucy turned up tip. To the top of the rakish looking edifice of yellow straw he sewed a tropical bird, with a red head, a yellow back, green wings, and red legs. The bird wobbled a bit when the wearer of the bonnet walked, but so would a live bird, too. On one side he sewed a piece of blue flannel ribbon, turning it at the corners with a guaranteed-to-cure white felt corn plaster. The other side was similarly treated, except that the flannel used was red. Two flowing strings of blue hung down from the back, while a piece of white silk ribbon tied in a farm hand's suspender-knot was sewed on the dashboard. Then a wilted radish was so used as to make the rear elevation complete.

They all said it was a great piece of work. And it was. The party was greatly enjoyed by the guests, all of whom say that the novelty of the affair made it of unusual interest. DON'T SPRINKLE DURING A FIRE Water Users Are Requested Not to Use Hose With Pressure On.

Janesville water consumers should read and comply with the request of the chief of the fire department, which is published in another column. It is necessary that lawn sprinkling should stop in time of fire. There are from twelve to fifteen hundred water consumers in the city, and when people are sprinkling their lawns, with this number of taps open it is difficult to maintain proper fire pressure. Realizing this difficulty, the chief engineer has requested the water company to strictly enforce the rule which prohibits "the use of hose for lawn sprinkling during a fire," and also publishes a card requesting water consumers to stop sprinkling on such occasions.

THE JANESVILLES WON THE GAME.

Madison Base Ball Team Was Defeated Yesterday Afternoon.

The best ball game of the season was played yesterday afternoon at Athletic park, between the Janesville team and the Madison nine, resulting in a victory for the home team by a score of 12 to 11. The attendance was quite large, it being estimated that three hundred people were present. The clubs lined up as follows:

Janesvilles.	Positions.	Madisons.
Aiken	Catcher	Smith
Brothers	Pitcher	Haney
Lutz	Short stop	Cessabone
Speed	First base	Burtell
Sullivan	Second base	Sutler
Cooley	Third base	Hageron
Blakeley	Left field	Swigler
Conroy	Center field	Newman
Dixon	Right field	Dean

La Prairie's Happy Hollows.

A game of ball was played on Minick's diamond south of this city yesterday afternoon between the La Prairies and the Happy Hollows, which resulted in a victory for the La Prairies. McConnell and Knippshieled and Geeser and Rhodi were the batteries.

GAS COMPANY LAY MORE MAINS

Extensions to Be Made in Several Parts of the City.

The New Gas Light Company commenced laying a 4-inch gas main on Center avenue this morning, which will extend from Galena street south to Western avenue. The gas company is planning to lay considerable new pipe this summer. Forest Park will get an extension, as will also Milwaukee avenue, and other sections of the city. It is claimed that the consumption of gas is constantly increasing, and that more gas is now consumed than ever before at this season of the year.

TRYING A NEW IDEA IN STREET REPAIRS

TEST AN EXPERIMENT ON NORTH MAIN STREET.

Commissioner Watson Is Digging Out a Section of the Old Road Bed and Replacing It With Broken Stone and Screened Gravel to See How It Will Work.

Street Commissioner Watson is trying his hand today at making a first class Macadam road on North Main street. A small section of the street has been torn up and the street commissioner is removing the earth or sand and putting down a heavy dressing of broken stone and screened gravel. The experiment is something new in the line of road building in Janesville, and it looks as though it might be durable, besides making a first class road. Perhaps if this proves just the thing, the whole of North Main street will be treated in the same manner. The street has been in bad condition for a long time, as it was very rough and full of pitch-holes.

THROWN FROM A BUGGY AND HURT

James Langdon Painfully Injured By An Accident Near Orfordville.

James Langdon who resides on Pleasant street had a painful experience at Orfordville Sunday afternoon. He hired a rig at that village to drive into the country and while passing a steep embankment the horse became frightened throwing the driver headlong into the ditch, cutting him about the head and shoulders and spraining his wrist. He was brought to this city and Dr. Pember dressed his wounds.

SMALL FIRE QUICKLY SQUELCHED

Dry Shingles Ignited By Sparks From a Locomotive Saturday Afternoon.

The alarm of fire Saturday evening a few minutes after 6 o'clock, was caused by an incipient blaze being discovered on the roof of the porch of a dwelling house on North River street, occupied by A. H. Linnemann. Sparks from a passing locomotive had set fire to the dry shingles, which were quickly extinguished with chemicals, with only nominal damage.

Why They Laughed.
Dudely Caneucker is not very bright, but still he has a memory for all the slang expressions. The other day at a little social party he mentioned the fact that the chief clerk in the office in which he is employed had resigned. "And you have got the vacancy, I suppose," jokingly inquired one of the boys.
"Oh, yes," sarcastically assented Gus, "I've got the vacancy, in my mind."
"Yes, that's so," giggled the prettiest girl in the room, and then everybody laughed, and Gus says he can't see what it was that aroused their merriment.—Texas Siftings.

They knew not whence the tyrant came;
They did not even know his name.
Yet he compelled to bow one and all
To bow in bondage to his thrall.
And from their lips allegiance wrung,
Although a stranger to their tongue.

Whilst he was wrapped in royal state
Their hours of toil were long and late.
No moment could they call their own
Within the precincts of the throne.
And when they dreamed their work was
He only made them slave the more.

Although the conquering king was he
Of people who had once been free,
No word of praise or promise fell
From him his subjects served so well,
And none of those who crowned him lord
Received a shadow of reward.

Obedience to his behest
Destroyed their peace, disturbed their rest.
Yet when his drowsy eyes grew dim
No mortal dared to waken him.
They stole about with stealthy tread—
"The baby is asleep," they said.

THE MILK WHITE DOE

The sound was so faint that only the ears of the skilled huntsman might hear it.

It came from hundreds of tiny hoofs, muffled by the grass in the mountain park.

"Antelope!" Together we lay face downward, I and my Indian guide, with our long rifles at easy rest, and awaited the coming of the band. It dashed over a hogsback and into full view, a wildly leaping, struggling, undulating mass of reddish brown, white tufted bodies stretched to the fullest speed.

Nervous? Yes, for in a moment more the band would pass us within easy range.

We lay with forefingers on the triggers as the timid animals, wild with fear, skimmed along as if wafted by the spirit of the wind. Now they are directly opposite. We will never have such another shot.

Onward they dash and pass so closely by that it seems we can hear their heartbeats. Their great, liquid eyes are wild with terror.

Another moment and the herd has swept by us; only the hindmost are in view. Now they are out of hearing and presently are lost to sight.

Absolute silence, save for the rustle of the brown grass as the cooling autumn wind stirs it.

Not a shot was fired. My finger was upon the trigger, my arm certain, but I lacked the power even for the gentle pressure necessary to send a bullet straight into the herd. I was under a spell.

I looked at Pablo. His dark face seemed almost pale; his eyes betrayed excitement, not the excitement of anger or fear, but of a tender sympathy.

The same power that had staid my finger when it would have pressed the trigger had a like effect upon him.

"Senor," he said, "it is the milk white doe that none may slay."

It was overpowering curiosity that had rendered my forefinger inflexible, for at the head of the band was the most beautiful animal I had ever seen—a milk white doe. She seemed fleet, more timid and of more graceful contour than any of the herd. She was the perfection of animal grace and beauty. I fancied I heard a soft, sad moan as she passed before the muzzle of my rifle. I was lost briefly in pathetic contemplation, and the herd was gone.

"Come, Pablo, it is almost dusk, but we must follow. Come, stir yourself, you unenthusiastic son of Montezuma, and let us be gone."

"Senor," said Pablo, in his calm and imperturbable manner, yet with a solemn impressiveness, "it is death to all who follow the milk white doe."

"Nonsense; I must have her. Let us follow quick."

"Have patience, senor, and tonight when we smoke by the campfire I will tell you the legend of the milk white doe."

And this is the legend he told me:

Before the white man knew there was a western continent, before the Spaniards came, even before the reign of the ancient Quetzalcoatl, lord of the Seven Caves of Navatlaques and king of the Seven Nations, out of which arose the splendor of the Montezuman empire, the powerful tribes lived in the north. They were as the sands of the shore washed by the great ocean of the rising sun, and the numbers of their arrows were greater than the twigs in the forest.

Their queen was Maxtella. Her skin was as white as the snow on yonder mountain peak, her lips were as scarlet as the flaming loco blossom, her eyes were as blue as the chalchuites in the Minas de las Perdidas, and from their liquid depths beamed truth and purity of soul.

She was a virgin queen. Her courtiers wooed her in vain. The richest of them all laid his wealth of chalchuites and beautiful shells at her feet. The mightiest hunter brought her trophies of the chase. To all she spoke words of wisdom and beauty, but her love was for no one man; it was for all her people. Her virtue and her beauty were the marvels of those days.

Her counselors were wise beyond their generation. Many things they knew that were unknown to the subjects of Queen Maxtella. They knew of the eastern ocean, of a great country beyond to which their ancestors had gone years before.

The northern hordes were at peace. So powerful were they that the tribes in the south did not dare to make war with them, nor would the queen suffer her subjects to make war upon those weaker hordes who dwelt in rocks and caves, high up in the cliffs that bordered on the green canyons. There was a vassal chief, Azul, of lowly birth and evil ways. He saw the beautiful Maxtella, and the sight of her touched his black heart. He loved Maxtella not for her virtue nor her wisdom. He loved her that he might rule the land, and that from his blood and hers might come a race of savage kings, and that the north-

ern hordes might make war upon the tribes of the south and despoil them of their treasure.

Azul knew the black magic art. He brought his richest treasure to Maxtella's court. He used his black art that he might appear pleasing in her sight. His arms and throat were bare. On his head was a snowy white helmet, and his dress was of green feathers. His breastplate of feather work gleamed like jewels when the sun shone upon it. Tall and straight was this vassal chief and mighty was his stride. Great blue and blood red stones shone in the middle of his sword.

But the counselors were wise men. They could see his black heart and read his evil mind, and they spurned him with scorn. They would have driven him from the court. The vassal chief held in his hand a wand, sharp pointed like a knife, by which he worked his magic art.

When the queen appeared, he looked at her and turned pale. Azul's eyes pierced her, but his magic was not strong enough to make her love him. Until then she knew not fear, but now the evil spell was upon her. All of Azul's power was exerted to subdue her gentle heart.

When she went to walk, a wolf sprang up in her path, sharp stones cut through the deerskin and wounded her feet.

Near by was a spring of healing water, but when Maxtella went to drink of it a foul odor of poisonous gases arose.

She sought her couch, but Azul had driven sleep away. When she was alone, the black hearted vassal chief would suddenly appear and with thongs of the deer would beat her white body until his savage lashes drew drops of blood.

All things could he make Maxtella do but love him. False words she spoke to her counselors and did unholy deeds that made her courtiers bow their heads in shame. No more was Maxtella just or merciful. Cruelty, pitiless cruelty, turned her love of her subjects to hate.

Of her attendants who remained faithful none was more so than a little page, a boy of not more than a score of years. These two sat one eve within the palace. The dusky shadows were gathering without, but the night could only bring added wretchedness to Maxtella. The boy sang to her, and as his song died away a black shape entered the room. It was Azul.

"Thy song is sad," he said to the page. "Why do you not weep, Maxtella?"

The rivers of Maxtella's eyes were dried up.

"Now I will teach you how to weep," and he struck her with his cruel thong.

Maxtella turned upon him her timid, pleading eyes. With a mighty bound the youth leaped toward the chief and seized the magic wand. Its possession gave him the strength of many men. He struck the wretch a blow and pinned him to the floor. Azul writhed in pain, and the blood dyed his dress of feathers crimson. None but a wizard might ever loose him. With the blow the spell he had wrought on Maxtella was broken, and all her gentleness and purity returned. It was this that caused her to pity the bleeding wretch, squirming in agony, yet furious with rage. She reached down her delicate hand to withdraw the wand if it were possible, when Azul seized her by the arm and buried his sharp, gleaming teeth into the hand extended in mercy.

Maxtella, unable to release herself, shrieked in pain. For the bite of the sorcerer was as deadly as the poison of the snake with the castanets in his tail.

"Now is thy blood mingled with mine," hissed Azul, "and of thy own free will! Now are we one forever. By my living hate and the mingling of our blood I have supreme power over thee. Coward thou hast ever been; coward thou shalt ever be. Thy spirit shall pass from thee in the form of the creature thou most resemblest—a doe, timid of heart, fleet of foot and spotlessly white. None may slay thee, yet thou wilt ever long for the dart that would release the spell. Thy speed shall shame the fleetest of the herd, and thy matchless beauty shall ever lure the hunter to his death."

And with these words a milk white doe darted from the palace walls, trembling with fright. It hides in brakes and canyons and flees when no hunter is nigh.

Hundreds have seen it, and many have been lured to pursue it. The fallen rocks from canyon walls hide the course of many a hunter who sought to slay the milk white doe. None has ever returned to tell the story of those chases. And those who escaped the canyon's dangers—their bones lie bleaching in eternal snow.—Chicago Times-Herald.

From Minerals, Vegetables.

It has long been a dream of the evolutionist that the vegetable kingdom has evolved from the mineral, as he believes that the animal has evolved from the vegetable, and it may be that in the fairy figures on our window panes we are witnessing, as it were, the efforts of nature to effect this transformation. We are taught that the earth was once too hot to support the life of plants, but that after the surface had cooled, trees, shrubs and mosses sprang up. Whence did they come?

A frosted window pane shows us the strange phenomenon of inorganic matter assuming the shapes of ferns and leaves and fronds, and may perhaps represent to our eyes in miniature a process which went on on a large scale during the pre-vegetable era of our earth's history. This idea is as old as the Jewish Cabala, where we read, "The breath became a stone, the stone a plant, the plant an animal, the animal a man, the man a spirit, the spirit a god."—London Spectator.

Enlightening Her.

She—Before we were married you used to think the world of me, but now you do not care for me at all.

He—But you should remember that we are one now, and self love, you know, is distinctively bad form.—Boston Transcript.

NOW, THE TIME TO MAKE MONEY.

Last month I cleared, after paying all expenses, \$235.38; the month before \$186.86 and have at the same time attended to my regular business. I believe anyone, anywhere, can do as well, as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy selling it. It seems strange that a good, cheap dish washer was never before placed on the market. With the Perfection, which sells for \$5 two minutes, without putting the hands in water. As soon as people see the washer work, they want one, and that is why so much money can be made so quickly. For full particulars address The Perfection Mfg. Co., Station O, Englewood, Ill. I feel convinced that any lady or gentleman, in any location can make \$5 to \$10 a day, as every family will very soon have a dish washer. Try it and publish your experience for the benefit of others. ALICE O.

If the Baby is Cutting Teeth, Be sure and use that old and well tried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind, colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Worse Than a Bomb. Tupenny—I found a burglar in the kitchen last night.

Bildad—Did you shoot him? Tupenny—No; I didn't have my revolver, but I grabbed up my wife's fruit cake and threatened to smash him, and he surrendered on his knees.—Town Topics.

Scanty Attire. "The bride's dress was unique and most becoming," says a country paper in its account of a local wedding. "An audible thrill passed over the spectator as she passed down the aisle leaning on the arm of her husband, simply covered with blushes."—Demorest's Magazine.

Beware of Imitations. ASK FOR THE GENUINE JOHANN HOFF MALT EXTRACT

"What a Lovely Complexion!"

"Isn't her complexion charming!" These are expressions we hear every day, made by women in reference to others, which reveal a pardonable envy, and one which can be gratified.

The secret of good health, as indicated by a rich color, and well-rounded figure, is found in a good digestion.

Shopping tours, dances and entertainments indulged in, will leave you utterly fagged out, unless you are obtaining all the value from your food; and it is so easy to accomplish this that you will wonder no one has spoken to you of it before.

Try with each meal, and at bed-time, a wineglassful or more of the Genuine Johann Hoff's Malt Extract, which you will find to be most acceptable to the palate as a beverage, and will lift you right on to the plane of the vivacious and trim-figured sister you admire so much, and who seems capable of enduring endless fatigue.

Then, again, we must remember the nursing mother, where two lives are dependent upon the proper nourishing of the one. Surely nothing can be more valuable to the mother, nor give more comfort to the baby, by producing a generous flow of milk, than the

GENUINE JOHANN HOFF'S MALT EXTRACT.

Defective nutrition is the foundation of all ailments. A healthy, well-nourished body can withstand almost any disease. There is resistance power in such a body.

I have been taking the Genuine Johann Hoff's Malt Extract myself for a year or so, and find it an excellent tonic and appetizer. Without doubt it is the best Malt Extract in the market.

W. A. WHITTEM, Druggist, Chesnut Hill.

BEWARE OF IMITATIONS.

The genuine has signature *Johann Hoff* on Neck Label.

Doubt About Insurance.

Insuring in a questionable company is like depositing in a shaky bank. Both concerns may pull through, but why take the risk? Read this list:

Royal Insurance Company.....Net Surplus, \$2,186,842.
Baltimore German.....Net Surplus, \$1,065,543.
New Hampshire Fire Insurance Company.....Net Surplus, \$ 434,628.
